DETAILED ACTION

Response to Amendment

The amendment filed 3/16/04 has been entered.

Claim Status

Claims 13-15 (Method), 16-18 (Apparatus) are pending in the application.

Claims 1-12 have been canceled.

Claim Rejections - 35 USC § 112

1. Claims 13-15, 16-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As for independent method claim 13, the phrase "when old terminal equipment is necessarily replaced" is vague and indefinite because the language indicates that the step is optional and not definite. Conversion of the above phrase to "as the old terminal equipment is replaced" is recommended to improve clarity.

As for independent apparatus claim 16, the phrase "wherein new terminal equipment are connected to a new processor when old terminal equipment is necessarily replaced" in the beginning of the body of the claim is vague and indefinite for an apparatus claim because features on an apparatus has to be recited either structurally or functionally. To carry any patentable weight, features of the claim must be recited structurally. Language such as "wherein, when, is necessarily, ..." make it vague and indefinite because it's not clear whether the claim is positive and definite. Changing of the current language to structurally language such as "means for

connecting new terminal equipment to a new processor as the old terminal equipment is replaced" is recommended to improve clarity.

Furthermore, the body of the remaining claim written in "function" style which is suitable for a method claim but vague and indefinite for an apparatus claim, i.e. line 11, "interface spreads out", line 17, "and downloads", line 19, "equipment inform", line 22, "further receives" and line 23 "so as to monitor".

Dependent claim 17, line 6, the phrase "and updates a status" is vague and indefinite for the same reason set forth above.

Dependent claim 18, line 2, the phrase "indicates connection", line 4, "determines the connection statuses", line 5, "sets a TEST mode", and the last sentence are vague and indefinite for the same reason set forth above.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
